

O4 Media has struck another distribution deal with India, again with video streaming service Amazon miniTV, this time with three popular Chinese Dramas - 'Tientsin Mystic', 'Breaking Dawn' and 'Last One Standing'. This deal comes closely on the heels of O4 Media's recent successful placing of Korean dramas to the same platform.

The titles have captured the hearts of audiences worldwide with their compelling storylines, exceptional production values, and outstanding performances by the talented cast. Amazon miniTV further strengthens its position as a premier destination for international entertainment, providing its subscribers with an enriched and diverse viewing experience.

Gary Pudney, Founder and Managing Director of O4 Media stated, "It's great collaborating with Amazon miniTV once again to bring these three outstanding Chinese dramas to a wider global audience. These titles are great examples of storytelling, and we are confident that they will resonate with viewers from diverse cultural backgrounds across India."

The decision to sell these Chinese dramas to Amazon miniTV comes as part of O4 Media's strategic efforts to expand its international presence and promote cross-cultural exchange through premium content.
